

Dear Ben L. Anderson,

- The water use plan is within the company's water right limits and contract limits. Historically we have never used the full amount.
- The POP are approved for each water right. We were recently notified by Michael Drake the proof of beneficial use needs to have some changes made to it and we are in the process now.
- No new water rights or POD's
- No changes
- There are no changes to our water use plan from 13 to 14. It will remain the same as last year.

Thanks,

David G. Willis,

Director of Golf Course Maintenance, CGCS
